	Re: cell towers/water towers/wind towers 1 1/2 times fall rate		

ex: fall zone of the tower is 1 1/2 x the height in all directions. A 200' tower would use 300' on

both sides and 300' front & back. 600 Sq ft x 600 sq ft= 360,000 sq ft

x .20 pr sq ft
